

In March 2022, under the Erasmus + programme , students from Atlantis College in Liopetri Cyprus attended and Erasmus VET mobility at Mac Cosmetics in Athens Greece.

Students undertook interactive workshops and practical tests to assess their development throughout the training. They had the opportunity to use MAC Cosmetic products and were shown a wide variety of make- up styles and looks that they had to practice and reproduce. They also had workshops on general skin care.

Mobility participants improved their competencies in a wide range of Make- Up and skin care treatments and product knowledge. The experience in Athens allowed them access to a more multi- cultural and diverse experience both on a professional and personal level.
